

## Grade 1

First graders build on what they learned in Kindergarten to develop phonemic awareness, comprehension, and vocabulary. Students build a strong foundation in Math skills and concepts.

### English Language Arts

Students gain independence in reading, learn more sight words, and become more adept at distinguishing vowel sounds. They write a narrative about their favorite day and create a persuasive poster about their favorite treat.

### Science

First graders investigate, analyze and interpret data, construct explanations and design solutions to demonstrate grade-level proficiency. Students learn to predict movement pattern of objects in the sky and then compare the sky where they live to that of students around the world.

### Social Studies

This course introduces beginning economics and good citizenship. By interviewing a family member, students come to understand how our country has changed over time. They learn about the many uses of maps by making a "Personal Atlas to My Life."

### Math

Students continue learning addition and subtraction—now with two digit numbers. They explore measurement, charts, graphs, time, money, and solid shapes. Students learn concepts by writing the biography of a number and creating a 3D cake design.

### Physical Education

Young learners focus on ways to be more active. Topics of study include exercise safety, nutrition, and the values of cooperation and teamwork. Students learn age-appropriate motor, non-locomotor, and manipulative skills.

### Health

First graders develop a basic understanding of the aspects of health. Topics of study include personal safety, nutrition, communication, disease prevention, basic anatomy, and physiology.

*Course content subject to change.*

Watch your child develop  
into an independent reader  
and writer.
